PROGRAM REPORT

Date: 05.06.2019

Name of the Program: A One Week FDP on “Cloud Computing Algorithms and Architectures”

Duration: 27.05.2019 to 31.05.2019

Venue: Seminar Hall, Academic Block

Resource Person's:

1) Dr. RAMAPATRUNI RAMBABU REDDY
PROFESSOR
Rajamahendri Institute of Engineering and Technology

Program Coordinator:

Miss.D Himaja, Assistant Professor, Department of CSE

Objectives of FDP:

- To get familiar with basic theory and algorithms in use in Cloud computing
- To know the current technologies & research issues that is specific to Cloud computing
- To learn how to use Cloud Services
- To identify shortcomings of the state-of-the-art implementation and remedial exercises in Cloud Computing

Outcomes of FDP:

- Ability to identify core concepts of the cloud computing paradigm: how and why this paradigm shift came about, the characteristics, advantages and challenges brought about by the various models and services in cloud computing
- Students identify the architecture and infrastructure of cloud computing, including SaaS, PaaS, IaaS, public cloud, private cloud, hybrid cloud
- Students Identify resource management fundamentals, i.e. resource abstraction, sharing and sandboxing and outline their role in managing infrastructure in cloud computing

BHIMAVARAM INSTITUTE OF ENGINEERING & TECHNOLOGY

Swarnabharathi Educational Trust has established Bhimavaram Institute of Engineering and Technology in 2007 in Bhimavaram with the view to meet the growing demands for technical education in the country. The College is located in a serene and pollution free environment at Pennada 6 km from Bhimavaram on Palakol and Pamarru Road. The campus is spread over 20 acres of scenic landscape is an ideal place for educational pursuits. It is well connected by road & rail. The labs, class rooms, information centre etc are uniquely designed and built to endow the students a hassle free environment to pursue their intellectual development.

Bhimavaram Institute of Engineering & Technology is unaided - Private Institute Located at Bhimavaram in Andhra Pradesh. The Address Of The Institute Is Gnanananda Ashram Road Pennada (Village) Palakoderu Mandal, West Godavari. It Operates Under The Parent Organization Swarnabharathi Education Trust. The Institute Started Its First Course In 2007. Bhimavaram Institute Of Engineering & Technology Is Open For Both Men And Women. Bhimavaram Institute Of Engineering & Technology Is Open For All Sections Of Society. The vision of our institute is to be a leading institution of engineering education and research, preparing students for leadership in their fields in a caring and challenging learning environment. The Mission of the intuition is to attract and retain knowledgeable, creative, motivated and highly skilled individuals whose leadership and contributions uphold the college tenets of education, creativity, research and responsible public service.

ABOUT HOSTING DEPARTMENT

Bhimavaram Institute of Engineering & Technology was established in the year 2007. The Institution was started with five AICTE approved undergraduate programmes in Departments of Electrical and Electronics Engineering (EEE), Electronics and Communications Engineering (ECE), Computer Science and Engineering (CSE), Departments of Civil Engineering (CE), Mechanical Engineering (ME) with an overall intake of students 360. The Vision of this Institute is – to be a leading institution of engineering education and research, preparing students for leadership in their fields in a caring and challenging learning environment and the mission is to produce quality engineers by providing state-of-the-art engineering education. The Department of CSE was established in 2007 with an intake of 60 seats. Department mission is to make innovative thinking engineers and to produce skilled software engineers. The department of Computer Science and Engineering has progressed with a strong determination to developing competent programs, uncompromising in standards. The department has full-fledged faculty members with experience in industry and teaching, which leads the students to get employment in the market. The department encourages the faculty members and the students to participate paper presentations, seminars, workshops and National and International conferences.

OBJECTIVE OF FDP

The Objective of the FDP is to provide the industry relevance exposure in the emerging technologies and experience the staff to develop their curriculum to teach and demonstrate in regular intervals. This FDP provides the wide range of experience in the IT and Non-IT industry. This workshop provides the confident in the PG Research scholars and professional teachers to enable their experience in wide range areas of proposed title. The FDP proposed that this FDP is the bridge between our esteemed educational institution and industry.

Objectives of FDP:

- To arrange a platform for participants to study on Recent Advancements on MEMS & Sensors with basic and advanced prospective.
- To understand the real world application of sensors and actuators and to know how they upgraded our lives.
- To explore the chances and challenges in the area of MEMS & Sensors to give insights into Advancements on MEMS.

Outcomes of FDP:

- Participants will be able to understand the fundamentals of MEMS actuators & Sensors
- After attending this program participants have been boosted with a strong basics and innovative thought in the field of MEMS and sensors.
- Program participants will capable of implementing projects based on MEMS & Sensors.

Program Coordinator:

Mr. S Jagan Mohan, Assistant Professor, Department of CSE

Objectives of FDP:

- The fundamental design, analysis, and implementation of basic data structures.
- Basic concepts in the specification and analysis of programs.
- Principles for good program design, especially the uses of data abstraction.
- Significance of algorithms in the computer fields various aspects of algorithm development.
- Qualities of a good solution.

Outcomes of FDP:

- Basic ability to analyze algorithms and to determine algorithm correctness and timeefficiency class.
- Master a variety of advanced abstract data type (ADT) and data structures and their implementations.
- Master different algorithm design techniques (brute-force, divide and conquer, greedy, etc
- Ability to apply and implement learned algorithm design techniques and data structures to solve problems.

BHIMAVARAM INSTITUTE OF ENGINEERING & TECHNOLOGY

Swarnabharathi Educational Trust has established Bhimavaram Institute of Engineering and Technology in 2007 in Bhimavaram with the view to meet the growing demands for technical education in the country. The College is located in a serene and pollution free environment at Pennada 6 km from Bhimavaram on Palakol and Pamaru Road. The campus is spread over 20 acres of scenic landscape is an ideal place for educational pursuits. It is well connected by road & rail. The labs, class rooms, information centre etc are uniquely designed and built to endow the students a hassle free environment to pursue their intellectual development.

Bhimavaram Institute of Engineering & Technology is unaided - Private Institute Located at Bhimavaram in Andhra Pradesh. The Address Of The Institute Is Gnanananda Ashram Road Pennada (Village) Palakoderu Mandal, West Godavari. It Operates Under The Parent Organization Swarnabharathi Education Trust. The Institute Started Its First Course In 2007. Bhimavaram Institute Of Engineering & Technology Is Open For Both Men And Women. Bhimavaram Institute Of Engineering & Technology Is Open For All Sections Of Society. The vision of our institute is to be a leading institution of engineering education and research, preparing students for leadership in their fields in a caring and challenging learning environment. The Mission of the institution is to attract and retain knowledgeable, creative, motivated and highly skilled individuals whose leadership and contributions uphold the college tenets of education, creativity, research and responsible public service.

ABOUT HOSTING DEPARTMENT

Bhimavaram Institute of Engineering & Technology was established in the year 2007. The Institution was started with five AICTE approved undergraduate programmes in Departments of Electrical and Electronics Engineering (EEE), Electronics and Communications Engineering (ECE), Computer Science and Engineering (CSE), Departments of Civil Engineering (CE), Mechanical Engineering (ME) with an overall intake of students 360. The Vision of this Institute is - to be a leading institution of engineering education and research, preparing students for leadership in their fields in a caring and challenging learning environment and the mission is to produce quality engineers by providing state-of-the-art engineering education. The Department of CSE was established in 2007 with an intake of 60 seats. Department mission is to make innovative thinking engineers and to produce skilled software engineers. The department of Computer Science and Engineering has progressed with a strong determination to developing competent programs, uncompromising in standards. The department has full-fledged faculty members with experience in industry and teaching, which leads the students to get employment in the market. The department encourages the faculty members and the students to participate paper presentations, seminars, workshops and National and International conferences.

OBJECTIVE OF FDP

The Objective of the FDP is to provide the industry relevance exposure in the emerging technologies and experience the staff to develop their curriculum to teach and demonstrate in regular intervals. This FDP provides the wide range of experience in the IT and Non-IT industry. This workshop provides the confidence in the PG Research scholars and professional teachers to enable their experience in wide range areas of proposed title. The FDP proposed that this FDP is the bridge between our esteemed educational institution and industry.

Objectives of FDP:

- The goal behind the Internet of things is to have devices that self report in real-time, improving efficiency and bringing important information to the surface more quickly than a system depending on human intervention.

Outcomes of FDP:

- The students will be thorough about the technology behind the **IoT** and associated technologies.
- The students will be able to use the **IoT** technologies in practical domains of society.
- The students will be able to gain knowledge about the state of the art methodologies in **IoT** application domains.

Conclusion:

By doing this faculty training program, your faculties of mechanical engineering department will get a good hands-on experience on IOT by developing cool projects. They will not only learn the concepts behind the working of sensors, data interpretation and programming logics, they will also use the knowledge gained to develop some interesting IOT projects.

ABOUT HOSTING DEPARTMENT

Bhimavaram Institute of Engineering & Technology was established in the year 2007. The Institution was started with five AICTE approved undergraduate programmes in Departments of Electrical and Electronics Engineering (EEE), Electronics and Communications Engineering (ECE), Computer Science and Engineering (CSE), Departments of Civil Engineering (CE), Mechanical Engineering (ME) with an overall intake of students 360. The Vision of this Institute is - to be a leading institution of engineering education and research, preparing students for leadership in their fields in a caring and challenging learning environment and the mission is to produce quality engineers by providing state-of-the-art engineering education. The Department of ME was established in 2012 with an intake of 60 seats. Department mission is to make innovative thinking engineers and to produce skilled design engineers. The department of Mechanical Engineering has progressed with a strong determination to developing competent designs, uncompromising in standards. The department has full-fledged faculty members with experience in industry and teaching, which leads the students to get employment in the market. The department encourages the faculty members and the students to participate paper presentations, seminars, workshops and National and International conferences.

OBJECTIVE OF FDP

The Objective of the FDP is to provide the industry relevance exposure in the emerging technologies and experience the staff to develop their curriculum to teach and demonstrate in regular intervals. This FDP provides the wide range of experience in Design and Manufacturing industry. This workshop provides the confident in the PG Research scholars and professional teachers to enable their experience in wide range areas of proposed title. The FDP proposed that this FDP is the bridge between our esteemed educational institution and industry.

Objectives of FDP:

- To understand fundamentals of Matlab and its Tools.
- To learn real world application scenarios of Matlab .
- To provide an opportunity for academician and researcher to learn, enrich, and enhance their knowledge with hands-on deployment skills in order to develop various programs based on Matlab.This program will provide knowledge to researcher and faculty on Matlab Tools with different applications.

Outcomes of FDP:

- Participants will be able to understand the fundamentals of Matlab & its Tools
- Implement different applications using Matlab.
- Acquire knowledge on signal processing using Matlab.
